Re: Approval of Lumidigm M-Series EPCS Biometric Subsystem Application

Dear Mr. Rannazzisi:

The purpose of this letter is to indicate that the Lumidigm M-Series Fingerprint Sensors DEA EPCS Biometric Subsystem Certification Test Report Version 2.0 dated 02 October 2013 has been renewed. Per the Lumidigm attestation of 15 July 2015, no changes to the biometric subsystem have been made during the two year period and therefore no changes to the 1311.116 or other EPCS requirements as applicable have been affected.

Therefore, this letter serves to update the certification, 130927-iBetaBTR-v2.0 titled "Lumidigm M-Series Fingerprint Sensors DEA EPCS Biometric Subsystem Certification Test Report," with a new expiration date of October-02-2017. No other changes or modifications to the report have been made.

As required by 21 CFR 1311.116(h)(5), the results of the testing and this letter are publicly available at <http://www.ibeta.com/biometrics/reports>. The referenced report is available from the links at the [same location](#).

Best regards,

A handwritten signature in black ink that reads "Kevin Wilson". The signature is written in a cursive style.
